## ABOUT US

We believe in the power of nature. That's why we created Siam Botanicals, an honest brand of natural face care, skincare and personal care products.

We guarantee that our products are made with the finest-quality natural ingredients. We're committed to responsible sourcing and work with local suppliers wherever possible. We also make a conscious effort to keep our packaging simple to minimize our impact on the planet.

Our face care, skincare and aromatherapy ranges are 100% natural – that means they are completely free from synthetic chemicals, colors and fragrances. Our premium personal care products are formulated with aloe vera juice and cold pressed oils. They contain no synthetic detergents, preservatives, colorants or fragrances. It is our policy to be completely transparent about the ingredients we use. Take a look at our website – we list everything that goes into our products because we have nothing to hide.

By combining age-old ingredients with scientific know-how, we have succeeded in creating a simple but highly effective range of unisex products to suit all skin types. Every formula is hand blended in small batches, to ensure that our exceptionally high standards are faithfully replicated in each pot, bottle and bar.

Our range includes premium face care, massage and body oils, balms, bath salts, solid perfumes, soaps and shampoos. So whether you're looking to rejuvenate and revitalize, tone and tighten, soothe and soften or simply pamper and preen, we're sure to have the perfect product for you.

## WHY NATURAL?

If you find a high-performing skin, face and haircare range that happens to use the purest ingredients possible, why wouldn't you choose it? If it delivers results while at the same time being sustainable and responsibly sourced, why say no? As our loyal customers around the world will testify, our products work. The fact that they're natural and environmentally safe is the icing on the cake.

We simply believe that natural skincare products are best, not only because they *don't* contain artificial chemicals but, even more importantly, because they *do* contain botanical ingredients that offer benefits not found in synthetic alternatives.

## COSMOS

Many of our products carry the COSMOS-standard certification, which means they meet the rigorous requirements set by BDIH, COSMEBIO, ECOCERT, ICEA and SOIL ASSOCIATION for organic and natural cosmetics. Look out for the logos on our packaging!

**OUR STORY**

# ANTI-AGING SERUMS

**Rudis Oleum** (literally, 'raw oil') is our premium range of 100% natural botanical face care. To create the four silky formulas in this product line we carefully selected nutrient-rich oils that absorb quickly and don't leave a residue on the skin; oils that are excellent sources of antioxidants; oils that are renowned for their anti-aging, moisturizing, protecting and balancing properties.

Because these formulas contain no water or fillers, they have a high concentration of active ingredients. A few drops go a long way – if used once a day, our 24g bottles will last around three months. We're confident that you'll notice the effects long before you get to the end of your first bottle!

## FACE CARE

# OIL CLEANSERS

Many cleansers can strip your skin of natural oils, prompting the skin to produce more oil. Oil cleansers, on the other hand, maintain the skin's natural pH balance and prevent this endless cycle of dry and oily skin. When massaged into the skin, oil cleansers bind to surface impurities, pulling out dirt without clogging pores and leaving the skin clean, soft and hydrated. Cleansing oil does not sink into your pores – it works to remove impurities and is then washed away.

Massage a small amount into your skin, splash with a little water to emulsify, then remove with warm water and a flannel.

Try something different! This rich, foamy solid shampoo bar leaves your hair silky and shiny using the naturally active cleansing and conditioning properties of kaffir lime, olive oil, shea butter and castor oil. It is long lasting and easy to carry around, making it a great choice for frequent travelers. It's also an eco-friendly choice (no plastic bottles to dispose of).

Gently rub the shampoo bar directly onto thoroughly wet hair in a combing motion, from roots to tips. Gently massage scalp and hair, adding more water as needed, until a lather forms.
